

Product Data

Rust Preventive AQ-3S

DESCRIPTION

AQ-3S is a water based temporary coating based on a novel combination of inhibitors

The product has excellent wetting, excellent rapid drying, and excellent effective dewatering.

Free of hydrocarbon solvents

Non-hazardous

Non-flammable

TYPICAL PHYSICAL SPECIFICATIONS

- Appearance: Pale yellow/amber liquid
- Specific Gravity @ 15C: 1.0
- Viscosity @ 40C (cSt): ~2cSt
- Flash Point: N/A (aqueous)
- Corrosion inhibition: 60 Days humidity cabinet

APPLICATIONS

For long-term indoor protection of metal components, applied by dipping or brushing. Removal being by alkali cleaner, solvents or conventional degreasing products.

HEALTH & SAFETY

Please refer to the relevant Health & Safety Data sheet.
