

TECHNICAL DATA SHEET

Superdraw AQFF

Description

A modern high quality, high performance synthetic oil to give significant enhancements in tool-life, operator comfort, and surface finish. Suitable for food grade applications.

Superdraw AQFF is a special product which is designed for aluminium forming applications. It is a low-odour, high performance product where good tool-life, and surface finish are preferred.

Our drawing Oils are suitable for blanking, forming, punching, and pressing of ferrous and non-ferrous metals, giving superior surface finish and tool-life. The specific grade required should be selected according to the application.

Benefits

Superdraw AQFF
➤ Low Odour
➤ Faster Drying
➤ Aluminium performance
➤ Non Staining

Typical Physical Properties

	Superdraw AQFF
Appearance	Pale Liquid
Specific Gravity	~0.98 @ 20°C
EP Performance	Moderate
Viscosity at 40°C	10cSt
Lubricity	High
Chlorine	Nil
Sulphur	Nil
Usage Concentration	As supplied

Application Method

Our Drawing Oils can top-up all common drawing oils without adverse effect, although the benefits of using a John Neale Ltd product will not then be fully appreciated.

The oil can be applied by brush, swab, roller, or automatic applicator.
